All other trade names referenced are the service marks, trademarks, or registered trademarks of their. BrilliantColor ensures a crisp, vivid true-to-life image even when there's a lot of ambient light to punch through. As a bonus DLP devices don't require filters that have to be periodically cleaned and

replaced. The SCP712.M11 can project in the NTSC, PAL and SECAM video systems plus 720p high definition. But this projectors most distinctive features are its super close capability combined with its included wall mount. By mounting the projector on the wall above the projection screen you eliminate the presenters shadow obscuring the screen and keep the presenter out of the glare of the projectors light beam. The wall mount also includes two 20 watt speakers, loud enough to fill a lecture hall. So it includes a Kensington security slot through which you can lock it up with a compatible Kensington lock available separately. The SCP712.M11 uses the renowned Texas Instruments Digital Light Processor Digital Micromirror Device DLP DMD with an innovation TI calls BrilliantColor for its display panel, the part that creates the image. So it includes a Kensington security slot through which you can lock it up with a compatible Kensington lock available separately. 2000 lumens at a 2100:1 contrast ratio produce bright, sharp pictures. Includes foldout wall mount with two twenty watt speakers. Computer RGB output is ideal for presenters monitor. Sorry, we failed to record your vote. Please try again. Ruby lampe with Modul case. Safe choice Easy and direct lamp replacement in accordance with the projectors user manual. Delivery to a freight station possible. Ruby lamps decrease the running costs of the projectors without making compromises concerning quality. The Ruby lamp is an affordable and clever alternative to the original lamp because it provides 100% capacity without any dangers for health and safety. At present times the array of products serves more than 8224 projectors and besides the Ruby lamp can be the perfect solution if the production of the original lamp is discontinued. It is the same bulb which is already installed in your projector, solely the cage is a highquality reproduction. Tipp Have

a look at you old module in advance Where is the difference. Which one is recommendable for meAll images are similar. Please try your search again later.I guess it depends if the projector is a New model, meaning they just made it. I was able to find to actual remote that goes to my projector. I feel like I wasted money buy the SMKLink. But it most likely will. Alternatively, choose a bare bulb without housing if you already have experience with replacing bare bulbs and are willing to deal with the more challenging replacement process. If you do not want to compromise on projection quality and reliability, choose an original manufacturer lamp. If you prefer a cheaper option and projection quality and reliability are not your top priority, buy a generic lamp. A suitable compromise is the original bulb inside option. It provides the same projection quality as an original manufacturer lamp, yet for a better price. You can choose from 3 lamp options original, hybrid or generic.This option is recommended for its maximum reliability and easy replacement process. This is a very reliable solution and is cheaper than the original manufacturer option. We recommend it thank to its reliability and affordable price.

It is a cheaper solution recommended for inhome use, where projection quality and reliability are not as crucial. Even though generic lamps are not necessarily of the same quality as original manufacturer lamps, their price is nevertheless very attractive. You can choose from two options of this bare lamp original or generic.This solution is cheaper than a lamp with housing, although it requires a certain amount of manual skills. This option is recommended for customers who already have some experience with bare bulb replacement. Keep in mind that replacing the bulb in the housing requires manual skills and tools. It is the cheapest option which we recommend for inhome use, where projection quality and reliability are not as crucial. Even though generic bulbs are not necessarily of the same quality as original manufacturer bulbs, their price nevertheless is very attractive. Which one should I choose We will help you find the right lamp Please provide us with your contact details below.
